Who We Are

“

We transform ideas into motion and ink into impact — delivering creative solutions that move audiences, whether on screen or on paper.

Big Daddy Fink Studios — known as BDFink Studios — is a creative services studio founded by Timmy Harris, a SCAD-trained artist and designer with over 26 years of professional experience. The name carries the swagger of rock poster art and the grit of underground illustration, while the work behind it spans everything from Fortune 500 marketing to limited-edition screen prints.

From 16 years leading multimedia design at IBM to producing marketing content for brands at Techtronic Industries, the studio brings enterprise-level polish to every project — while never losing the creative fire that fuels its gig poster art and illustration work.

Today, BDFink Studios operates at the intersection of traditional craft and emerging technology, incorporating generative AI tools into its creative pipeline while maintaining the hand-crafted sensibility that makes each piece distinctive.

Whether it's a social media campaign that needs to stop the scroll, a motion graphics package that elevates a brand, or a limited-edition gig poster that becomes a collector's piece — the work is always driven by the same principle: make it matter.

Brand Personality

Versatile

Equally at home in a corporate boardroom presentation and a rock venue lobby. The work adapts to the audience without losing its identity.

Seasoned

26+ years of solving creative problems across industries. Deep expertise that shows in the craft, not in the pitch.

Creative

Rooted in fine art training (BFA, SCAD) with a restless curiosity for new tools and techniques — from hand-drawn illustration to generative AI.

Reliable

Fortune 500–tested project management and delivery. Deadlines are met, feedback is incorporated, and quality is consistent.

— 02 — LOGO & NAME USAGE

The Name System

The studio name has several canonical forms depending on context. "Big Daddy Fink" is the full brand name, with abbreviated forms for different touchpoints. Consistency in usage reinforces brand recognition.

Big Daddy Fink

BDFink

Abbreviated form for tight spaces, social
media avatars, watermarks

`@bdfinkstudios`

Primary Logo

*Primary logo — on dark
backgrounds*

*Primary logo — on light
backgrounds*

The illustrated logo is a distinctive brand asset with several key components that should be preserved in all usage.

Typography Lockup

"Big Daddy" in bold, blocky lowercase letters. "Fink" in outlined/dimensional lettering. "Studios" in flowing script. The mixed typographic styles are intentional — they reflect the studio's range.

Self-Portrait Character

The illustrated self-portrait in the golden circular frame is a core brand element. It personalizes the studio and establishes the hand-drawn aesthetic immediately.

Mascot

The brain creature with the red top hat is the studio mascot. It adds personality and works as a standalone mark for social media avatars, stickers, and watermarks.

Color Language

The logo uses deep maroon/red, black, white, and gold — tones that naturally align with the brand's Ember and Midnight palette. These colors anchor the brand across all touchpoints.

Text-Only Wordmark

For contexts where the full illustrated logo is too complex (small sizes, single-color printing, email signatures), use the text-only wordmark.

ON DARK BACKGROUNDS

B D Fink Studios

B D **Fink** Studios

Logo Rules

Clear Space

Maintain a minimum clear space around the logo equal to the height of the letter "B" on all sides. No other elements should encroach on this space.

Minimum Size

The logo should never be displayed smaller than 120px wide on screen or 1.5 inches in print to maintain legibility.

Color Integrity

Use only approved color combinations. On dark backgrounds, use white text with Ember accent. On light backgrounds, use Midnight text with Ember accent.

Don't Distort

Never stretch, compress, rotate, add effects (drop shadows, outlines, gradients), or alter the proportions of the logo or its animated version.

— 03 — COLOR PALETTE

Color System

A palette built to bridge the corporate professionalism of video production with the bold energy of illustration and poster design. Click any swatch to copy its hex

BRAND COLORS

Ember

#E8553D · RGB 232, 85, 61

Primary accent. CTAs, highlights, the "Fink" in the logo. Use boldly but sparingly.

Amber

#E8A83E · RGB 232, 168, 62

Secondary warm accent. Warnings, supplementary highlights, illustration-side energy.

Sage

#7CAE8A · RGB 124, 174, 138

Success states, positive indicators, balance against warm tones.

Steel

#5B8FA8 · RGB 91, 143, 168

Informational, links, the professional/corporate side of the brand.

DARK FOUNDATIONS

Midnight

#0D0F12 · RGB 13, 15, 18

Primary background. The foundation of the brand's dark, cinematic feel.

Charcoal

#1A1D23 · RGB 26, 29, 35

Cards, elevated surfaces, secondary backgrounds.

Slate

#2A2E36 · RGB 42, 46, 54

Borders, dividers, tertiary backgrounds.

Smoke

#8B8F96 · RGB 139, 143, 150

Muted text, captions, metadata, disabled states.

Ash

#B4B8BF · RGB 180, 184, 191

Secondary body text, descriptions.

Cloud

#E2E4E8 · RGB 226, 228, 232

Borders on light backgrounds, subtle dividers.

White

#F5F5F3 · RGB 245, 245, 243

Primary text on dark, light-mode backgrounds. Warm white, not stark.

— 04 — TYPOGRAPHY

Type System

A pairing of editorial serif and clean sans-serif that reflects the studio's dual nature — artistic craft meets professional clarity.

DISPLAY — INSTRUMENT SERIF

The quick brown fox
jumps over the lazy dog

BODY — DM SANS

The quick brown fox jumps over the lazy dog. BDFink Studios delivers creative solutions across video production, motion graphics, illustration, and graphic design — with 26+ years of experience behind every frame and every stroke.

Usage Guidelines

Instrument Serif — Display & Headings

- Use for all display text, page titles, and section headings
- Weight: 400 (regular) only — the serif's elegance comes from its natural form
- Line-height: 1.05–1.15 for headings
- Use italic sparingly for emphasis or creative accent
- Never use below 1.1rem — switch to DM Sans for smaller sizes

DM Sans — Body & Interface

- Use for all body copy, navigation, buttons, labels, and UI text
- Weights: 300 (light), 400 (regular), 500 (medium), 600 (semibold), 700 (bold)
- Line-height: 1.5–1.7 for body text
- Letter-spacing: 0.01em for body, 0.1–0.15em for uppercase labels
- Use uppercase + letter-spacing for section labels and metadata

— 05 — TONE OF VOICE

How We Sound

The brand voice bridges two audiences: corporate clients who need reliability, and the creative community who values authenticity. The key is confidence without pretension.

Confident

Lead with expertise,
not with disclaimers

Direct

Say what we mean,
skip the jargon

Personable

Professional warmth,
not corporate cold

Grounded

Let the work speak,
not the adjectives

Do & Don't

✓ DO

"I've spent 26 years solving creative problems — here's how I'd approach yours."

"Your video needs to stop the scroll in 3 seconds. I know how to make that happen."

"I handle the full pipeline: editing, motion graphics, color, sound, and delivery."

"Let's talk about what you need and find the right approach."

✗ DON'T

"I bring a wealth of expertise and a proven track record of delivering high-quality work."

"We provide compelling solutions leveraging our synergistic capabilities."

"Creative Thinker and Dreamer" (as a professional title)
BDFink Studios

"I've been getting into new stuff like Generative AI applications."

Context Switching

Corporate & Proposals

Professional, results-focused, specific. Emphasize deliverables, timelines, and measurable outcomes. Reference Fortune 500 experience and enterprise-level process.

"With 16 years of multimedia production at IBM and post-production leadership at TTI, I bring enterprise-grade quality and reliability to every project."

Creative Community

Authentic, direct, fellow-artist energy. Emphasize craft, collaboration, and creative process. Let the art and illustration portfolio do the heavy lifting.

"I've been drawing gig posters and concert art for over a decade. Each one is hand-crafted, limited edition, and designed to end up on someone's wall — not in the trash."

Social Media

Casual but intentional. Show process, behind-the-scenes, and finished work. Short, punchy captions. Let visuals lead.

Resume & Cover Letters

Confident and specific. Lead with results and capabilities, not generic descriptors. Every sentence should either prove competence or demonstrate fit.

"Led end-to-end post-production for TTI's product launch campaigns, managing timelines across internal teams and external vendors to deliver on-brand video assets."

— 06 — VISUAL STYLE

How We Look

Visual guidelines that maintain consistency across both the video/motion portfolio and the illustration/design portfolio.

Video & Motion Thumbnails

- Dark, cinematic framing — pull the most dynamic frame
- Consistent aspect ratio: 16:9 for video thumbnails
- Minimal text overlay — let the image speak
- If text is needed, use DM Sans Bold in White or Ember
- Subtle vignette or grade to unify thumbnail sets

Illustration & Poster Art

- Present at full resolution with clean borders
- White or Midnight background behind artwork — never busy
- For portfolio: show the art straight, no mock-ups unless requested
- When showing print work, photograph on neutral surfaces
- Color accuracy matters — calibrate displays when possible
- Hand-drawn line quality is a brand signature — preserve it

Photography Treatment

- Desaturated, slightly cool grade for behind-the-scenes photos
- High contrast, editorial feel — not Instagram-filtered
- Grain is acceptable and reinforces the analog-meets-digital brand
- Avoid overprocessed HDR or heavy vignettes
- Crop intentionally — asymmetric compositions over centered shots

Graphic Elements

- Use thin rules (1px) in Smoke or Border color for dividers
- Ember accent lines or bars for emphasis (2–3px weight)
- Rounded corners: 10–16px for cards, 6px for small elements
- Subtle gradients (radial, low opacity) for atmospheric depth

Layout Grid

12-Column Grid System

Max width: 1200px. Gutter: 24px. Margin: 32px (desktop), 16px (mobile).

Full Width — 12 columns

Content + Sidebar — 8 / 4

Split — 6 / 6

Thirds — 4 / 4 / 4

— 07 — DIGITAL PRESENCE

Where We Live Online

Consistent presentation across all digital touchpoints reinforces brand recognition and professionalism.

- bdfinkstudios.com — Primary site. Video editing, motion graphics, post-production portfolio
- art.bdfinkstudios.com — Illustration, gig posters, and graphic design portfolio
- Both sites share the same brand identity and naming
- Cross-link between sites where work overlaps

- Handle: @bdfinkstudios across all platforms
- Profile photo: consistent logo mark or branded avatar
- Bio format: "Video Editor · Motion Graphics · Illustrator · 26+ years"
- Link in bio: primary website URL

Professional Profiles

- LinkedIn:
linkedin.com/in/bdfinkstudios
- Headline should mirror resume: role-focused, specific
- Banner image: portfolio highlight reel frame or poster art
- Keep experience section aligned with current resume

Email Signature

Standard email signature format for all business correspondence.
